
Government restrictions

Government rules and regulations

- The government is strengthening preventive measures, closing shops and restaurants to the public for ten days.
- Due to the spread of new coronavirus the government has restricted the free movement of people to the essential minimum.
- The government requires wearing of face protective equipment.
The government ruled that from 19 March 2020 people are prohibited from moving around outside their homes without protective respiratory equipment. Protective devices include surgical masks, respirators, face masks, scarves, head scarves or other means of preventing the spread of droplets.
